Web Forms	Public-facing web form capture	\$274.73	\$2,772.23

How volume pricing works

Pricing scales with your team size. The first 25 users are charged at the top rate; the next 50 users at the second-tier rate, and so on. Larger teams progressively unlock lower per-user pricing.

Tier descriptions

Gold — Light-to-medium data capture. Access to standard screen types and connectors. Unlimited data and file storage. Up to 1,500 form entries per user per month. Includes a small monthly AI usage allowance. No access to Tasking or Docs modules.

Platinum — Heavy usage tier. Full access to all screen types and all connectors. Unlimited data, file storage and form entries. Full access to Tasking (job dispatch and process steps) and Docs (document management). Includes a small monthly AI usage allowance.

AI Pro — Everything in Platinum, plus unlimited access to all AI-powered features — AI Form Generator, Conversational AI Assistant, AI Voice and Photo Fill. For teams using AI extensively rather than within an allowance.

Edge — Ad-hoc or low-usage personnel — visitors, occasional contractors, casual reporters. Feature access mirrors the core tier in your account (Standard or Premium). App access only — no portal access. 10 transactions per user per month, pooled across all Edge users.

All pricing in NZD, exclusive of GST. Per-user pricing applied per client account; minimum 12-month term. Pricing for 2,000+ Gold/Platinum/AI Pro users by quotation.
